## Freight Forwarding's Growing importance

Freight forwarders play a critical role as the backbone of global supply chains, offering tailored solutions to meet the ever-changing demands of business enterprises.

The e-commerce boom is revolutionising the freight forwarding industry, driving unprecedented growth and transformation as consumers embrace online shopping, businesses must deliver goods faster, more efficiently, and seamlessly across borders.

Leveraging last-mile delivery optimisation, seamless customs clearance, and multi-modal transportation, empower businesses to stay competitive in the fast-paced digital economy.

## Digital Transformation & Technology adoption

Logi-Sys helped us in Automating , Streamlines and Integrates the Freight Forwarding and Customs Clearance Processes to Enhance Operational Efficiency, Improve Customer Service and Increase Profitability. It is an Advanced and Feature-Packed ERP that help to be more Process Oriented and Productive. It has helped the business to reduce the turn around time by 50% .

- **Integrated cloud software** : Cloud allows control & management of Air Freight, Sea Freight, Land Freight, Warehouse, Transport, Customs, & integrates it seamlessly with CRM, Billing, & Financial Accounting online from anywhere, anytime with any device .
- **Cost Optimisation:** Integrated financial accounting in a single system saving the cost on a separate accounting system
- **Enhanced Customs Broking processes:** Increase efficiency in the customs clearance process with 100 percent updated documentations and customs compliance .
- **Analytics & Business Intelligence:** The System provides Business Intelligence through MIS reporting, automated inventory control to measure revenue, and accurate financial forecasting with user-friendly charts and graphs.

# Global Accreditations

# Our Esteemed Clientele

# Why Invest now

- **Excellent Growth potential** - Turnover crossed Rs. 380+ crores in the period ending Dec 2024 and Potential to be a Rs. 5,000 crore company
- **One stop shop** Flomic is poised to grow further in both top line & bottom line since it is a one stop shop for all logistic needs. With expanding foot prints & global tie ups gross margin % to get boost as well
- **Warehousing** Excellent growth potential in Warehousing Business where due to onset of Ecommerce business & asset light approach outsourcing of WH is growing quick
- **Compliance and transparency** - There are very few companies from freight forwarding which are listed on Stock exchange therefore compliance & disclosure par excellence
- **Liquidity** - Shares listed on BSE. Currently trading @ PE ration of 28. Peak share price was Rs. 212 on BSE post listing .

# Way Forward

- Expansion in newer geographies & setting up branches /nodal offices in Dubai, Singapore, Sri Lanka, Netherlands, London.
- Setting up the Air cargo Centres in Airports to move up in the value chain and increase the scope of business exponentially .
- Investment in working capital to acquire the large customers to enhance Gross volume of the business.
- Owning the fleet of vehicles to cover the forward integration and ensuring last mile connectivity on its own.
- Setting up container freight stations in up-coming ports.
- Investment in Warehousing to grow the business manifold
